EXPERIENCE

ITSEC Asia · Jr. Offensive Security Consultant — Oct 2023 – Present
Previously Offensive Security Consultant Intern, Feb – Aug 2023 — Jakarta, Indonesia

- Lead web application, API, infrastructure and Active Directory penetration tests and retests for telecom, banking, health insurance and education companies, across white-, grey- and black-box engagements.
- Write English technical reports and walk client stakeholders and engineers through risk and remediation.
- Run several client engagements in parallel while meeting each report deadline.

Synapsis.id · Backend Developer Intern — Nov 2022 – Feb 2023

- Built backend services in Go and MySQL, containerized with Docker, for a production-efficiency system for a coal mining client in Kalimantan.
- Built the company portfolio site in Next.js.

Camp404 · Fullstack Web Developer Intern — Jan – Mar 2022

- Built a Laravel and MySQL CRUD app and sped up its search page by querying results on demand instead of loading the full table.
- Taught HTML, CSS, PHP and SQL to 1,514 participants over Zoom and YouTube.

Widya Security · Cybersecurity Engineer Intern — Aug – Dec 2021

- Tested web applications using OWASP and ISSAF methodology, including application-layer DoS resilience testing.
- Researched forensic acquisition of encrypted chat traffic; the work became a published journal paper.

PROJECTS & PUBLICATIONS

Forenlog · Bash, undergraduate thesis — 2023
Forensic tool for investigating XSS and DDoS attacks in web server logs. Published in the UGM ETD Repository.

Waduk Bendo IoT monitoring · PHP, ThingSpeak API — 2022
Real-time monitoring software for the Bendo reservoir, built for Yiqun Technology (Taiwan) and PLN.

Nu-piyungan.com survey app · Laravel, JavaScript — 2021
Survey and data collection web app for the Nahdlatul Ulama community in Piyungan; front-end development.

Analysis of Encrypted Network Traffic from a Secure Instant Messaging Application: A Case Study on Synology Chat — 2022
G. Y. Rasyad, D. Hariyadi, T. Febrianto. Jurnal Cybersecurity dan Forensik Digital, Vol. 5 No. 2.

EDUCATION

Universitas Gadjah Mada · B.Eng. Information Engineering — Aug 2019 – Jul 2023

- Teaching assistant for Computer Security, IT Auditing and Risk Management, and Data Compression; lab assistant for Basic Programming and OOP.
- Software Developer Lead, Technocorner tech event (2020–2021) · Vice President, Night Login Linux and networking community (2020–2021).
